

Resume

Dongliang Wang received the B.E. and M.E. degrees in Material Science and Engineering from Institute of Beijing Technology, China, in 2003 and 2006, respectively. Since 2006, he has been employed by Key Laboratory of Applied Superconductivity, Institute of Electrical Engineering, Chinese Academy of Sciences, where he is currently an Associate Professor. In 2016, he gained his Ph.D. (Engineering) at the University of Chinese Academy of Sciences. He has put his research interest focus on the fabrication and characterization of MgB_2 and iron-based superconducting wires and tapes. He is also interested in the superconducting joints and coils. He has authored or co-authored 140 scientific articles published in refereed journals.
